

# Pullpay ADA

---

\*PullPay ADA\*: URL-Based ADA Payment Solution

# Project Description

A platform designed to simplify ADA payments for student organizations through URL-based pull payments. Features include customizable payment pages, transaction history, and integration with Cardano blockchain for secure and transparent payments.

# What Problem You Are Trying to Solve

This platform tackles the issue of cumbersome and non-transparent financial transactions. By leveraging URL-based pull payments on the Cardano blockchain It simplifies the payment process, reduces administrative overhead, and enhances trust through blockchain's transparency.
