CardaClub

NFT-Powered Student Clubs

Problems

01 **Difficulty in Verifying and Managing Club Memberships**

....

02 **Inefficient Fundraising and Event Management**

....

03 **Scattered Communication and Event Scheduling**

Solutions

01 ....

Blockchain Enabled Memberships

Leverages NFTs for secure, blockchain-authenticated club memberships, boosting trust and innovation in student club joining processes.

02 ....

Unified Club Management and Fundraising Platform

Streamlines club management, memberships, and fundraising on one platform, simplifying tasks and enhancing engagement.
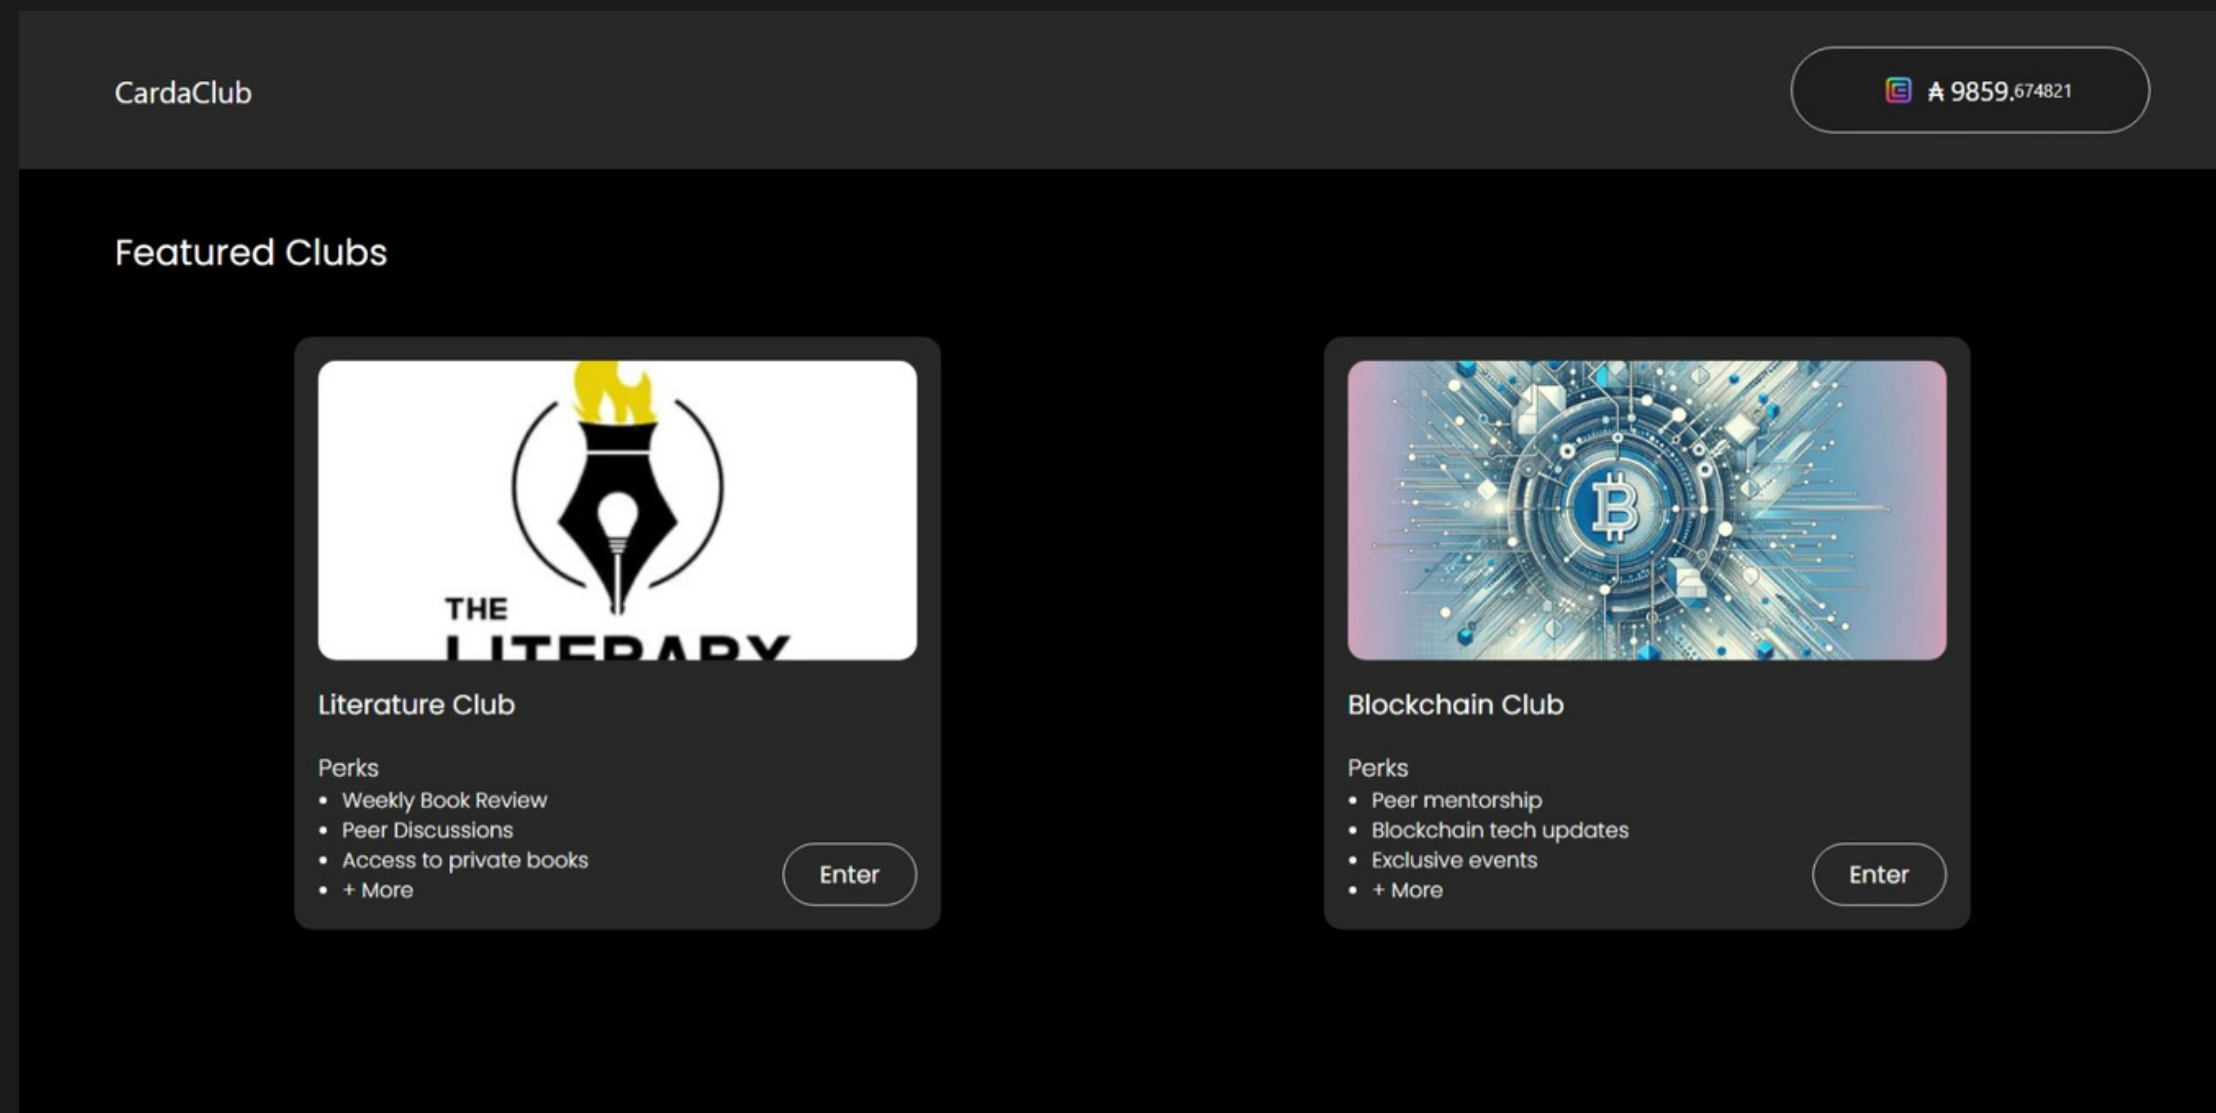

03 ....

Interactive Community Features

Boosts member interaction and community with a video lounge and shared calendar, fostering a more connected club environment.

Connect Wallet

Purchase a membership by clicking "Join" on the desired listed club. If your balance is sufficient, you will be prompted to sign for the payment. With this payment, a club NFT is minted to your wallet, containing metadata indicating the club you've subscribed to, for example, "type": "Literature".

Access the Club

After getting the NFT, you are now subscribed to the club and can enter it. Inside, you'll find a common video lounge where club members can interact with each other.

Club Events

Additionally, fundraising events for the club are listed below, which you can support through funding via ADA. A shared calendar is available for viewing all scheduled events.

Thanks! ❤️
